

World Biome Travel Agency Project

Due Date:

Friday, February 5, 2016

Each member of your team is to create a brochure that will advertise to a world traveler everything your assigned biome has to offer. This is an individual, not group project. If you don't like drawing, you may print up pictures at home and paste them on the various pages.

To create the brochure, fold a sheet of paper in half, so that you have 4 pages to write on (cover, 2 inside, back). You may fold it the long or short way.

Your cover should include:

- a. The name of your biome
- b. A drawing or picture of your biome.
- c. A slogan about you biome.

This should be something that describes your biome and would make someone want to travel there for vacation.

One inside page should describe the climate of your biome. Use both pictures and words to describe it. You should include:

- a. On what continents your biome is found
- b. temperature
- c. precipitation
- d. an activity that you can do in this weather while on vacation (**BE CREATIVE**).

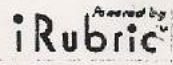

The other page should show and describe some typical organisms you would see at your biome. Again use both pictures and words. You should describe:

- a. animals
- b. plants

The back page should include any other interesting facts about your biome. You should use your notes that you took from the videos to help you. You may also research on the internet to find other facts that would help persuade someone to visit your biome.

Rubric: World Biome Travel Agency Project

World Biome Travel Agency Project			
Enter rubric description			
	Poor 1 pts	Fair 3 pts	Good 5 pts
Cover name of biome, drawing of biome, slogan	Poor You are missing more than one required aspect of the cover page. Minimal effort went into creating your cover.	Fair You are missing one required aspect of the cover page. Only some effort went into creating your cover.	Good No required aspects are missing from the cover. A great deal of effort went into creating your cover.
Page 1 - Climate temperature, precipitation, activity	Poor You are missing more than one required aspect of this page or much of the information is incorrect You were not very effective in displaying the climate of your biome.	Fair Your missing one required aspect of this page or some information is incorrect. You were only partially effective in displaying the climate of your biome.	Good No required aspects are missing from this page. Your creatively and effectively displayed the climate of your biome using an appropriate activity
Page 1 - location Where on Earth is this biome found	Poor You did not explain where on Earth the Biome is located	Fair You are missing some of the places on Earth where the Biome is found	Good You correctly identified all the places on Earth where the Biome is found
Page 2- Organisms Typical plants and animals	Poor You are missing more than one required aspect of this page. You did not clearly show the plant and animals in your biome.	Fair Your missing one required aspect of this page. You only partially showed the plants and/or animals in your biome.	Good No required aspects are missing from this page. You clearly showed enough plants and animals in your biome.
Back page - Other Interesting Fact	Poor You did not include any extra facts about your biome that you found from the video, books, or the internet.	Fair You didn't show much effort in including extra facts you found from the video, books, or the internet.	Good You included many interesting facts from the video, books, or the internet.
